“FIRE-WALL” Record

Protects What You Can't Insure

The “Fire-Wall” Record Safe has been scientifically planned and designed. Long study and careful analysis of the conditions to which a safe is subjected by fire, and the most effective means to combat the fire elements, have resulted in the development of this “Fire-Wall” Record Safe, with two walls of steel, asbestos lined, and a big dead air space between.

Thousands of your records may be stored in a spacious interior with protection that is free of any worry. Your records are filed ready for instant access in a desired combination. “Office Specialist” Filing Sections mount the interior of the safe on interior equipment.

LIVERPOOL, April 16—"For some reason beyond my comprehension I have been awarded the D.F.C." Such was the cable received by Mr. and Mrs. E. J. Wright, of this town, from their son, Pilot Officer Jerauld Wright; now in Scotland.

Mr. and Mrs. Wright, taking keen pride in the fact that their son has been honored with the Distinguished Flying Cross, are now eagerly awaiting details of his exploits.

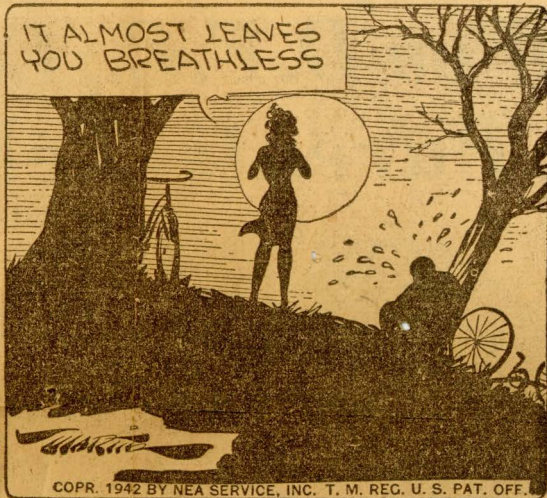

Jerauld Wright joined the Air Force in May 1940 and prior to his enlistment was a valued member of the staff of Seldon's Pharmacy here, and also was connected with the circulation department of The Halifax Herald, being captain of the local carriers.
