

Mr. Weller

Dr. Dunwiddie

S. Proctor Street

Mr. Weller's Compl^{ts} to Dr. Dunwiddie, is much obliged to him for the removal of Mr. Morgan's vol^{ts} from which he has received great amusement, and instruction — Mr. W. has taken the liberty of leaving for Dr. D.'s perusal two publications which he met with a few days ago, and has requested Mr. Proctor to leave also a volume by a M^r Lyon, on the subject of Electricity, who seems to have been a diligent and candid enquirer, and who if living at the present day, might have made his work much more valuable.
