CITATIONS

M. President:

I have the honour to present Horace Julian Bond, Georgia State Representative.

At twenty-nine he is already a leading figure in the civil rights movement and in the peace movement.

In 1960, at the age of twenty, he helped to found the Student Non-violent Coordinating Committee, and from 1961 to 1966 was its director of communications. In 1960 he was again active in founding the Committee Appeal for Human Rights, and served as its executive secretary in 1961. In 1966 he was co-Chairman of the National Conference for New Politics.

Julian Bond left Morehouse College during his senior year to join the Atlantic Inquirer, of which newspaper he became managing editor in 1963. As a writer, he explains that he is "ideologically against violence", yet understands the agonizing nature of the experiences which have driven many of his early associates into a more radical position.

In 1965 he was elected to the Georgia House of Representatives, then banned from his seat because of his anti-Vietnam statements. He was reinstated by the Supreme Court of the United States which determined that it was not just a right but an obligation of elected officials to speak on controversial matters.

For his influence in public life, for his contribution to the fight for racial equality, and for the vitality and intelligence he brings to the politics with which he is concerned, I now ask you, Mr. President, in the name of the Senate, to confer upon Horace Julian Bond the degree of Doctor of Laws, *honoris causa*.

Mr. President:

I have the honour and pleasure to present David Alexander Colville, artist and teacher.

Alex Colville is a man whose works have been seen and owned by virtually every Canadian, but it is not only for his striking designs of the Centennial coins of 1967 that we honour him today. We honour him as one of Canada's distinguished painters.

Born in Toronto, he came as a boy to the Maritimes. He entered Mount Allison University and, after studying under Stanley Royle, received the degree of Bachelor of Fine Arts in 1942. In that year he enlisted in the Canadian Army, and as an official war artist, served with the Royal Canadian Navy in the Mediterranean and with the Third Infantry Division in Europe. His work of those years was later seen in the Exhibition of Canadian War Art in Amsterdam, London and Ottawa.

In 1946, he returned to Mount Allison and for the next seventeen years taught and painted there, developing the style that is associated with the unique vision of Alexander Colville. For the last six years he has devoted himself chiefly to painting. His works, which are regularly exhibited in North America and Europe, have been seen at times in Brazil and Poland and were the Canadian exhibit at the Venice Biennale in 1966. He was awarded the medal of Service of the Order of Canada in 1967, and he now serves on the Canada Council.

For his enrichment of Canadian life, I ask you, Mr. President, in the name of the Senate, to confer upon David Alexander Colville the degree of Doctor of Laws, *honoris causa*.

Mr. President:

I present Douglas Henderson Fullerton, public servant, financial and economic consultant, journalist and author. Born in St. John's, Newfoundland, and educated at McGill University, Mr. Fullerton served in the Canadian Army with the rank of Captain both at home and overseas. When he was Treasurer of the Canada Council, his skilful management substantially increased the funds available for university buildings and scholarships. His role as advisor concerning the nationalization of electric power in Quebec is only one of his many contributions as financial consultant. His weekly column on the economic problems of Canada is now carried by ten Canadian newspapers. His book *The Bond Market in Canada* written at a time when that market was worth writing about, became a bestseller. Throughout his varied and successful career he has displayed in an exceptional degree the qualities of imagination and high-powered common sense. He is, indeed, so fertile in ideas that they sometimes jostle one another while they strive for oral expression.

It was fortunate for Nova Scotia that Mr. Fullerton, having established a summer home in Cape Breton, became deeply concerned about the economic problems of that part of our province. In his present capacity as Chairman of the Cape Breton Development Corporation he gives inspired leadership and renewed hope.

For his many contributions to the public life of Canada and especially for his services to Canadian universities and to Cape Breton and Nova Scotia, I ask you to confer upon him the degree of Doctor of Laws, *honoris causa*.

Mr. President:

I have the honour to present Arthur James Marshall Smith.

Professor Smith was born in Montreal, received a B.Sc. and M.A. from McGill, and a Ph.D. from Edinburgh. He has been a member of the Department of English at Michigan State University since 1936, with time off for a Guggenheim Fellowship in 1941-42, and Rockefeller Fellowship from 1945-47 (both for work on Canadian literature), and as Canada Council Visiting Professor and Poet in Residence at Dalhousie in 1966-67. He has won the Governor-General's medal for Poetry and the Lorne Pierce Medal of the Royal Society of Canada, and has been awarded Honorary degrees by several Canadian universities.

The dry bones of biographical facts, impressive though they are, cannot reveal the true greatness of A.J.M. Smith, who since the twenties has been in the forefront of the struggle to make our own literature known and respected. While a student at McGill and one of the new moderns of the Montreal movement, he began to write poetry that attracted attention. As a critic of Canadian writing he ranks as one of our very best, and as an editor of Canadian poetry he is easily the greatest. His early recognition of poetic talent and his generous and unselfish encouragement of young writers are less obvious, but undoubtedly great contributions to our literature.

A man of great energy of mind and magnanimity of spirit, A.J.M. Smith wherever he goes generates an atmosphere of faith and optimism. For his great and continuing service to Canadian literature as poet, critic, scholar, editor and teacher, I now ask you Mr. President, in the name of the Senate, to confer upon A.J.M. Smith the degree of Doctor of Laws, *honoris causa*.

Mr. President:

I have the honour to present Samuel Rosborough Balcom. A native Nova Scotian, he has practised Pharmacy for many years, after graduating from the Nova Scotia College of Pharmacy in 1915, with the Silver Medal.

He was a member of the House of Commons for seven years, and in 1956 was a delegate to the World Health Organization. Recently he served as a member of the Royal Commission on Election Costs and Member Indemnities for the Province of Nova Scotia. This spring he retired from the Board of Governors of the University after serving for thirty years.

Mr. Balcom has served this country in two wars. In 1915 he was the first pharmacist to hold the rank of Lieutenant-Dispenser, and in World War II he achieved the rank of Lieutenant-Colonel, serving as Chief Medical Stores Inspection Officer for Canada and Newfoundland. He is a Past-President and is presently an Honorary President of the Dalhousie Overseas Unit Benevolent Association.

Mr. Balcom is a Past-President of the Halifax Retail Druggist Association, the Nova Scotia Pharmaceutical Society and the Canadian Pharmaceutical Association. In 1964 he was made an Honorary Life member of the Canadian Pharmaceutical Association and in 1968 received the Bowl of Hygeia Award for service to Pharmacy and his community.

He has served many local organizations, including the Board of United Appeal, the St. John Ambulance Association, the Royal Canadian Legion, the Halifax School Board and the Board of Edgehill School. He was a founding member of the Maritime School of Social Work, is a Past-President of the Halifax Board of Trade, the Halifax Council of Social Agencies, the Dalhousie Alumni Association, the Halifax Rotary Club and the Halifax Visiting Dispensary. He is a Director of the Callow Veterans' and Invalids' Welfare League and a Governor of the Army Museum located at Citadel Hill.

As a sportsman he was elected to the Nova Scotia Hall of Fame, being a Medalist and Captain of the Red Cap Snowshoe Racing Club.

In recognition of his many years of dedicated service to his community, to this University, and to Pharmacy, I ask you, Mr. President, in the name of the Senate, to confer upon Samuel Rosborough Balcom, the degree of Doctor of Laws, *honoris causa*.

Mr. President:

I present the Honourable Lucien Lamoureux, the Speaker of the House of Commons. Mr. Lamoureux was born in Ottawa of French-Canadian parentage and educated at the University of Ottawa and at Osgoode Hall. He was elected to the House of Commons for Stormont in 1962, 1963 and 1965 and for Stormont-Dundas in 1968. He became Deputy Speaker in 1963 and Speaker in 1966 and was again elected Speaker in September of last year.

The Speakership of Mr. Lamoureux has special significance for the constitutional history of Canada. He quite properly decided that the ethos of his high office prevented him from again standing for Parliament as a party candidate. This decision, together with the confidence his conduct had inspired, made possible and all-party agreement that he be re-elected Speaker whatever the outcome of last year's general election. This unprecedented agreement enabled him to stand again for Parliament but this time as an independent and as Speaker-designate. As a result he is now being referred to as our first 'permanent' or 'continuing' Speaker.

It has been said of Mr. Lamoureux that he is totally bilingual and indeed bicultural, and that he is as bilingual in his thinking as in his speech. He has been the right man at the right time. In honouring him Dalhousie marks the indispensable role he has played in the achievement of an important and long overdue reform. It is with great pleasure, therefore, that I now ask you, in the name of the Senate, to confer upon him the degree of Doctor of Laws, *honoris causa*.

Mr. President:

I have the honour and pleasure to present George Hugh Pringle, native Nova Scotian and a leader in one of North America's primary industries, who returns today to be honoured by the institution at which he completed the first stage of his higher education.

George Pringle, whom the pulp and paper industry named Man of the Year in 1968, is a native of Pictou who received his diploma in engineering from Dalhousie in 1924, and his Bachelor of Science from McGill in 1926. In that year, he entered the industry in which he continues to serve both as engineer and administrator. After his first employment with the Canadian Paper Company at Windsor Mills, Quebec, he joined the Mead Corporation at Chillicothe, Ohio, in 1927. He has remained with that firm since then, becoming President in 1963.

During the Second World War, he served in Washington with the War Labor Board, a service for which he was honoured in 1965 by the United States government. For many years he has been a member of service organizations and has been an advisor to Ohio University.

George Pringle returns to Dalhousie today, Mr. President, after a forty-five year career of increasing distinction for which I ask you to confer upon him, in the name of the Senate, the degree of Doctor of Laws, *honoris causa*.

Mr. President:

I have the honour to present the Honourable Louis Joseph Robichaud, one of Her Majesty's Counsel learned in the law, Premier of New Brunswick.

His birthplace was Saint Anthony, New Brunswick, where he received his early education. After receiving his Bachelor of Arts degree at Sacred Heart University in 1947, he did postgraduate studies in the sciences of economics, sociology and politics at Laval University. In 1952 he established his law practice in Richibucto.

A member of the Legislative Assembly of New Brunswick since 1952 and leader of his party since 1958, he became the youngest Premier of his province in 1960 and the first Acadian to hold that office.

His term of office has been marked by much pioneering legislation, the most notable of which is his government's Programme of Equal Opportunity. He established a Royal Commission on Finance and Municipal Taxation from which he received a report recommending the most sweeping reforms ever proposed by such a commission in Canada. Reports calling for so much change are usually left safely on the shelf. At great political risk, and to the astonishment of most and the consternation of many, his government implemented the report almost in its entirety in the greater interest of the people of New Brunswick. This imaginative and courageous act has given a lead to the rest of Canada.

An Acadian determined to maintain the heritage in Canada of the French culture and language, he is first and foremost a Canadian, who, in the current debate on our constitution has steadfastly demonstrated that he is equally determined to maintain a single and united Canadian nation.

For his contribution to the political life of his province and country, I ask you, Mr. President, in the name of the Senate, to confer upon the Honourable Louis Joseph Robichaud the degree of Doctor of Laws, *honoris causa*.

Mr. President:

I have the honour to present John McKenzie Willis, B.A. Oxon., 1929; LL.D. Ottawa, 1965, Professor, Faculty of Law, University of Toronto.

Born in England, Professor Willis came to America after graduating from Oxford, as a Commonwealth Fund Scholar at the Harvard Law School. While at Harvard, he achieved early distinction as a legal writer in the publication of a major work entitled **Parliamentary Powers of English Government Departments**.

Professor Willis' career as a law teacher began at Dalhousie in 1933. Since then he has been welcomed as a teacher by most of the leading law schools in Canada: Osgoode Hall from 1944 to 1949; University of Toronto from 1949 to 1952 and again from 1959 to the present time; and the University of British Columbia from 1957 to 1959. The only break in Professor Willis' long teaching career came in the five years between 1952 and 1957, when he engaged in the practice of law with a distinguished legal firm in Halifax.

Professor Willis is without peer as a legal scholar, teacher and writer in the common law world of the Commonwealth and the United States. As a scholar he has explored vast and diverse areas of the law; as a teacher and writer he has brought understanding to many branches of the law to more than a generation of law students and practising lawyers. His brilliant article "Statute Interpretation in a Nutshell" is known and respected throughout the Anglo-American legal world as one of the finest and most influential pieces of legal writing ever to appear in a legal journal.

But it is as a learned, witty and stimulating teacher that Professor Willis will be best remembered by the thousands of Canadian lawyers who have had the good fortune to attend his lectures over the years. Painstaking preparation—the hallmark of the successful trial lawyer—lay behind every lecture delivered by Professor Willis in his long and successful career as a law teacher. Dalhousie is proud indeed to honour John Willis—a profound scholar, a witty and stimulating teacher, and a brilliant writer and I ask you, Mr. President, in the name of the Senate, to confer upon him the degree of Doctor of Laws, *honoris causa*.
